As an engine designed for racing, it had many performance parts available both from the factory and the aftermarket. A race-ready NASCAR 13.6-1 high-riser was good for some +550 hp, depending on tune. This engine was also used in the A/FX-cars like the famous Fairlane Thunderbolt. Two different 427 blocks were produced, the top oiler and side oiler. The top oiler version was the earlier and delivered oil to the cam and valvetrain first and the crank second.

Info. For many car parts, such as engines and cylinder heads, it is important that you specify the correct motor code on your request.The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you.
