Fanuc robots - RoboDK Documentation

Many time a machine will lose it's home position due to loose wires, battery dies on the amplifier or just plane bad luck.

Fanuc home position reset - YouTube

Fanuc Macro Variables: Note that these ranges may vary across controllers and especially for non-Fanuc controllers! Mach3 has 10,320 variables available, from #0 to #10320. There's not quite the variety found in Fanuc, but still, plenty of system variables are accessible so you can get at things like work offsets.
