### Science! (Knowledge Encyclopedias): DK: 9781465473639 ...

What is science? There are different theories of what "science" is. According to empiricism, "scientific" theories are objective, empirically testable, and "predictive" — they predict empirical results that can be checked and possibly contradicted.. In contrast, scientific realism defines science in terms of ontology: science attempts to identify what "things" in the world, their causal ...
